Abstract of JP2003126130

PROBLEM TO BE SOLVED: To provide a corrector relating to the corrector used in correcting hallux valgus which does not become a burden except for to a hallux, does not hinder walking when wearing and has good wearability. **SOLUTION:** The hallux valgus corrector does not hinder the movement of an articulation required for the walking by making an articulation portion 3 between a metatarsal and a proximal phalanx of a correcting rod movable, does not become the burden to fingers other than the hallux by employing the correcting rod and is constructed to enhance the wearability by improving the shapes of both the ends of the correcting rod.
